Admin Quick Start Guide to Lineup Manager

Oct 18, 2026 · Jeffrey Haid

For club admins: the fast path to setting up your club — teams, coaches and access. For the full walkthrough, see the Admin Guide. For game-day use (rosters, availability, lineups), see the Coaches guides; admins can do everything coaches can on every team in the club.

Set up your club

1. **Accept your admin invite** from the email you received and create an account (or sign in). The app lives at **lacrosselineupmanager.com** — bookmark it.
2. **Choose Girls or Boys.** The first time the club is opened you're asked once whether it's a girls or boys club. It applies to every team: girls start 12 on the field, boys start 10 (3 attack, 3 midfield, 3 defense, 1 goalie). You can change it later from the Admin page.
3. **Open the Admin page** with the **Admin** link at the top of any page, or **Manage club** on your dashboard. Everything below happens there.

Create your teams

1. Under **Teams**, enter a team name, pick a **Theme** (color) and a **Team type** (Travel or Rec), then click **Create team**.
2. Click **Settings** → next to a team to rename it, change its color or type, assign coaches, or export its data.

Invite your coaches

1. Under **Club members**, type the coach's email, choose a team in **Assign to team** (optional), leave Role as **Coach** (or choose Admin), and click **Send invite**.
2. The coach clicks the link in the email, creates an account with that same email address, and lands on their team automatically. Coaches only see teams they're assigned to.
3. Need a coach on more than one team? Open each team's **Settings** and, under Coaches, use **Add a club member as coach**.

Keep an eye on invitations and members

1. Invites that haven't been accepted are listed under the member list as "invited, pending." **Resend** sends a fresh email (the earlier link stops working); **Revoke** cancels the invitation.
2. Next to each member, **Make admin** / **Remove admin** changes their role, and **Remove** takes them out of the club and off every team. You can't change or remove yourself, so keep at least two admins.

Optional: turn on Practice plans

A **Practices** tab (practice plans, templates and a drill library) is a premium feature switched on per club by the Lineup Manager team. Contact them to enable it — once it's on, every coach and admin in the club sees the tab.

Need more?

The Admin Guide covers all of this in detail, plus roles and permissions, the girls/boys setting, assigning coaches, multiple clubs, and troubleshooting.
